

<b>CAMP COORDINATION and CAMP MANAGEMENT</b>	
<b>Cluster Lead: United Nations High Commissioner for Refugees (UNHCR)</b> <b>Partners: Arbeiter Samariter Bund (ASB), Christian Children’s Fund (CCF), Cooperazione Internazionale (COOPI), Gruppo de Volontariato Civile (GVC), District Local Government.</b>	
<b>EXPECTED OUTPUTS AND IMPACTS</b>	<b>RESULTS</b>
Camp management and coordination structures will be in place throughout the Teso region.	After initial assessment 7 priority camps - were to start Camp management - were identified in Katakwi in collaboration with ASB. The camps have a population of 500 HH/3500 persons. Establishment of camp management will gradually spread into other camps. Visits to camps in Amuria for assessment on going, using Age Gender Diversity Mainstreaming for identifying IDP priority needs.
Some 45,000 individuals relocated to safe grounds in dignity and safety.	No program of voluntary relocation initiated by the Government and consequently no activity carried out.
Camp closure process well underway throughout Teso.	The camp closure process will start in the final phase of the emergency, planning for phase out is incorporated in camp management planning..

<b>COORDINATION</b> <b>Lead: Office for the Coordination of Humanitarian Affairs (OCHA)</b> <b>Partners: Local Council representatives in flood-affected areas</b>	
<b>EXPECTED OUTPUTS AND IMPACTS</b>	<b>RESULTS</b>
Information on priority needs in the isolated flood-affected communities is communicated to cluster partners in a timely manner;	A compilation of existing assessments has been made available to cluster partners. Inter-agency assessments with DDMC participation are continuing, with a focus on consolidating affected population numbers per cluster. Targeting of response priorities is undertaken on a daily basis in humanitarian coordination meetings in the response hub, Soroti.
Monitoring of the evolving humanitarian situation is undertaken on a regular basis;	Monitoring of the impact and activities undertaken by cluster is consolidated on a weekly basis
Communities are informed about the evolution of the response, including the details of upcoming distributions and other response actions in their communities.	15 Telephones, SIM cards, airtime and chargers have been distributed to community leaders in isolated flood-affected communities so as to improve communications between the humanitarian coordination structures and the affected population. A further 15 units will be distributed next week.

**EDUCATION****Cluster Lead:** United Nations Children’s Fund (UNICEF)**Partners:** Ministry of Education and Sports; District Local Governments; Uganda National Examinations Board; School Management Committees; ACTED, CCF, COOPI, Loro PTC, Lutheran World Federation (LWF), PSI, Samaritan’s Purse, SCiU, WCH, URCS**EXPECTED OUTPUTS AND IMPACTS**

Continued schooling and normalcy restored to the lives of those children in flood affected communities;

**RESULTS****Teso & Mt Elgon region:**

Coordination: Education Sector Working Group meetings are convened weekly (every Thursday) in Soroti. Joint assessment exercise involving Local Government Officials and partners is ongoing in Kasiro County, and the findings will be shared next week. Assessments ongoing in Mt. Elgon (Sironko and Kapchorwa)

Establishment of Temporary Learning Spaces & Support to PLE candidates

Installation of tents to support P7 candidates in the flood affected schools is ongoing. In Amuria district, 469 PLE candidates have been identified (181 girls). Of these 250 are expected to be relocated to Amucu Mission PS. Installation of 2 classroom tents and 10 teachers’ tents has been completed at this centre. For learners’ safety especially girls, Senior Women Teachers (SWTs) from the affected schools will move along with their respective P7 candidates. WFP will provide food and also facilitate transportation of furniture to the established PLE centres from the original schools. Katakwi and Bukedea Districts are finalising their district contingency plans for PLE, to support candidates in the 29 and 43 flood affected schools respectively.

1 classroom tent and 3 stance temporary latrines have been installed while installation of 3 additional stances on-going in Obalang PS; 1 classroom tent and 3 teachers’ tents are being installed in Moru Arengan PS. Installations ongoing daily.

**Lango region:**

Coordination: Weekly meetings in Lira district for effective response to the flood situation.

Joint Assessment The joint assessment exercise in the Lango region with focus on Lira has been concluded with participation of the MoES, UNEB and Lira DEO. Key findings: PLE centres are reportedly affected in Lira district, 52 schools estimated to have 1,263 candidates, the total number of affected schools is 61

	<p>(59 in Lira and 2 in Oyam).  Establishment of Temporary Learning Spaces &amp; Support to PLE candidates (PLE centres in Pyengal, Apami, Okut, Abiya, and Gomi) have been supported with tents (2/centre), and the 2 in Oyam (Ariba and Minakulu primary schools). Scholastic materials (School in Box kits) have also been pre-positioned to support resumption of schooling when normalcy returns in the affected schools.</p> <p><b>Acholi Region</b>  Updated information on affected schools in Kitgum: 18 schools 15,769 learners (8,042 girls).  At the national level, procurement of PLE kits is about to be finalised targeting an estimated over 10,000 candidates in the flood affected schools in the eastern and northern districts.</p>
<p>Outbreaks of water-related diseases in schools are averted / prevented.</p>	<p>For standardisation and quality assurance purposes, partners in hygiene and sanitation education are in the process of compiling a standard set of training materials which will be also be used in the schools.</p> <p>Construction of temporary-plastic latrines is ongoing targeting 20 worst hit schools per district; and each school will be provided with 10 latrine stances (5 for girls and 5 for boys). In Teso region, World Vision will undertake latrine construction in 10 more schools of Soroti and Amuria, whereas Water Aid undertakes provision of hygiene and sanitation education in the 4 districts (Katakwi, Bukedea, Amuria and Soroti). The ongoing distribution of water purification tablets by PSI has also extended to schools in a bid to provide access to safe water amongst affected children.</p>

<b>PROTECTION</b>	
<b>Cluster Leads: United Nations High Commissioner for Refugees (UNHCR)</b>	
<b>Partners: ASB, CCF, UNICEF</b>	
<b>EXPECTED OUTPUTS AND IMPACTS</b>	<b>RESULTS</b>
Protection issues are minimised for the flood-affected population;	UNHCR staff deployed has started assessment. Set up/reinforcement of protection coordination mechanisms for emergency response to protection issues. DHRPP meeting to be held in Soroti Oct 5, in Katakwi October 10.
Protection monitoring systems in place;	Establishment/reinforcement of protection monitoring and reporting mechanisms is ongoing. Ugandan Human Rights Commission has committed a person full time for the floods. OHCHR monitoring on-going. Assessments conducted in Amuria, Katakwi, Soroti, Sironko and Kapchorwa districts. UNHCR conducted Age Gender Diversity Mainstreaming in Amuria to look at IDP priority needs. CP/GBV emergency teams set up at district level in Amuria, Katakwi, and Soroti, CP lead agencies appointed at sub-county level to mobilise existing community structures and NGO staff to conduct systematic assessment in priority locations and to issue weekly updates on the situation, response and gaps.
SGBV prevented as much as possible and effective response mechanisms in place;	Existing GBV prevention and response mechanisms previously established in Soroti, Katakwi and Amuria refocused to provide a response to the emergency situation under the coordination of UNICEF.
Minimal incidence of family separation;	Child Protection prevention and response mechanisms previously established in Soroti, Katakwi and Amuria refocused, and additional staff (8) deployed, to provide a response to the emergency situation, including prevention of family separation, under the coordination and support UNICEF.
Extremely vulnerable persons and persons with specific needs identified and supported as required.	Ongoing identification of EVI for inclusion in distribution lists (food, NFI, shelter) and to ensure access to basic services (education, health).

<b>LOGISTICS</b>	
<b>Cluster Lead: World Food Programme (WFP)</b>	
<b>Partners: Support services to all humanitarian actors responding to the floods</b>	
<b>EXPECTED OUTPUTS AND IMPACTS</b>	<b>RESULTS</b>
Air passenger transport for assessments of inaccessible areas available;	<p>1 Mi8 helicopter ex Soroti for inter-agency assessments as of 18 September 07. To date 190 passengers from 32 organisations (incl. government, media and donors) were transported on 472 legs/sectors.</p> <p>The initial inter-agency assessment phase by air has been completed; revision of assessment findings is going on by road where possible. A second round of assessments is expected in November.</p>
Air cargo available to supply most urgent humanitarian assistance;	<p>1 Mi8 helicopter ex Soroti for most urgent cargo transport as of 18 September 07. To date 13.4mt food and 10.4mt NFI were flown to 14 destinations that are inaccessible by road. In Soroti, temporary storage facilities are currently provided to UNICEF, ASB, UNHCR, Samaritan's Purse and WFP.</p> <p>Estimated food and NFI to be transported by air for October requirements: WFP 5,000mt; IFRC/URCS approx. 260mt ; UNICEF (for NGOs ASB, Concern, GVC, IOM, LWF) approx. 260mt (air/road split being calculated); other NGOs approx. 37mt</p> <p>Expected arrival of 1 additional Mi8 for NFI airlift as well as 1 Antonov 12 on 7 October.</p>
Light road and bridge network repaired to ensure continued deliveries of aid cargo;	<p>2 SRSA road/bridge engineers have completed the assessment to recommend solutions for key bottleneck access ways to the affected population. Findings were shared with the Ministry of Works, who is working on an intervention plan with the support of WFP.</p> <p>After identifying possible alternative routes and mobilizing 6x6 trucks delivery of food and NFI by road is going to some accessible locations.</p>
Logistics information is shared for identification and response to gaps and bottlenecks.	<p>The logistics cluster has been activated and meetings are taking place in Kampala and Soroti on a regular basis for information sharing, updates and operational briefs. A website (<a href="http://www.logcluster.org/uganda-floods">http://www.logcluster.org/uganda-floods</a>).has been set up to share information such as a summary matrix, contact, maps and updates. Organisations participating in the logistics cluster meetings are: ACF, ARC, Concern, Coopi, Office of the Prime Minister, CCF, ASB, FHI, IFRC, URCS, IOM, ISP, Merlin, Oxfam, OCHA, SC, THW, TPO, UNDSS, UNHCR, UNICEF, WFP, WHO, World Vision.</p>

	<p>A detailed transportation overview map (atlas) has been produced by UNJLC for the logistics cluster . These maps and well as constatnly updated road condition maps are available on the website. A gazetteer has been produced with sortable, filterable list of all populated places, including IDP camps and settlement sites, classified by type of location (IDP, settlement, town, etc), district, sub-county, and parish. Latitude/Longitude coordinates are provided</p> <p>For air operations a user group, consisting of representatives from NGOs and UN organisations, has been set up to establish priorities in terms of destinations and items to be airlifted.</p>
